Portfolio : <https://aldojason.github.io/portfolio/>

OBJECTIVE

To obtain a Software Developer position where I can use my programming knowledge, problem-solving skills, and willingness to learn to develop efficient solutions and contribute effectively to the company's success.

EDUCATION

B.E. Computer Science and Engineering

Nehru Institute of Technology (2023-2027)

CGPA: **8.23** (up to 4th semester)

SKILLS

- Languages: **Python, javascript**
 - Frontend: **HTML, CSS**
 - Tools & Platforms: **Git, GitHub, VS Code, Postman, Flask, REST APIs, Render**
-

PROJECTS

MediPredict Neuro AI

- Built a full-stack web application using React, TypeScript, and Supabase to manage users, data, and authentication efficiently.
- Developed an AI-powered health analysis system integrating external APIs for real-time insights and performance optimization.
- **livelink** : <https://neuroprediction.netlify.app/>

Spam Email Detection System

- Built a machine learning-based spam email detection system using Python and NLP techniques to classify emails as spam or non-spam with high accuracy.
- Developed and deployed a Flask web application on Render, enabling real-time email analysis through a simple and user-friendly interface..
- **livelink** : <https://resumecraft-gmoz.onrender.com>

PDF Automation Tool

- A comprehensive web-based PDF manipulation tool built with Flask and JavaScript. Perform various PDF operations with an intuitive drag-and-drop interface.
 - **livelink** : <https://pdf-automation-tool-q8sc.onrender.com>
-

EXPERIENCE

Web Development Intern – Elevate Labs

(Aug 2025 – Sep 2025, Remote)

Built and deployed production-ready apps using React, Node.js, Flask, and Render.

Gained hands-on experience in deployment, version control (Git).
